Attention: Mrs. Fischer

Subject: July 2022 Monthly Report

On the billing cycle ending on the 23rd of July 34,719,000 gallons of water were used by our consumers, an average of 1,157,000 gallons was used per day.

On July 11, 2022 received an aerator TTHM failure alarm. Upon inspection it was concluded the motor had ceased. We contacted the manufacture (Medora) to request a quote for repairs. Medora is scheduled to make repairs by the end of August. We are currently running on three TTHM aerators. The State Water Board division of drinking water has been notified. No violation occurred because of this incident.

On July 27, 2022, collected Trihalomethanes (TTHM's) samples and were sent to Clinical Lab of San Bernardino for analysis. The results came in on August 5, 2022 and were below the maximum contaminant levels (MCL) for TTHM's. The running annual average (RAA) MCL for TTHM's is 80 parts per billion (ppb) and we attained 64 ppb for the Mc Cabe site and 50 ppb for the Little Field site. Heber Public Utility District continues to be in compliance with the State and Federal Water Regulations.

If you have any questions, please contact me at (760) 427-4685
