The parties also recognize that drug and alcohol abuse is an illness. It is therefore the intent of the Policy to set forth not only a uniform substance abuse testing procedure, but to provide, where appropriate, reasonable opportunity for the rehabilitation and eventual return to work of those persons found in violation of this Policy.

Applicability

The Employer may conduct drug and alcohol; testing for any individual referred to the Employer as a regular seniority employee. Further, regular seniority employees in the employ of

the Employer may, during the course of their employment, be the subject of drug and alcohol testing under the following circumstances;

1. In accordance with Federal law as set forth in Department of Transportation Rules and regulations governing the testing of certain individuals.
2. When the Employer has probable cause to believe, on the basis of objective signs and evidence that any employee is under the influence of drugs or alcohol. Probable cause shall mean that the Employer believes that actions, appearance or conduct of any regular seniority employee or casual are indicative of the use of drugs or alcohol.
3. For safety. Any regular seniority employee(s) who performs his/her job in a manner which results in injury to persons or serious damage to equipment or property will constitute reasonable suspicion to believe that such individual was under the influences of drugs or alcohol. Such reasonable suspicion will become probable cause to test such individual in accordance with the Policy, except that in the case of injury when medical treatment beyond first-aid is not required and no other symptoms of drug or alcohol use are present.
4. Notwithstanding anything to the contrary, the Employer shall not, in testing for the presence of drugs or alcohol, act in arbitrary or capricious manner.

Testing Procedure

Testing for the presence of controlled substances (drugs), shall be by urine sampling. Testing for the presence of alcohol shall be by blood sampling (or breath testing). If such technology is readily available and can be performed in conformance with applicable legal standards). In order to ensure the integrity of the testing process, the following procedures will be followed in conducting drug and alcohol testing:

1. Consent Form. Each regular seniority employee will be required to sign a Consent Form at the collection site prior to undergoing a drug or alcohol test for any reason. Failure to sign a Consent Form will result in termination.
2. Testing Laboratory. A reliable laboratory certified by the National Institute on Drug Abuse (NIDA) will be used. The laboratory must maintain its certification.
3. Integrity and Identity of Specimen. Production of the specimen will not be observed. Each specimen will be identified by code number, not name, to ensure confidentiality of the Donor. Each container will be properly labeled and made tamper proof in the presence of the Donor.
4. Chain of Custody. Handling and transportation of each specimen will be properly documented through strict chain of custody procedures.
5. Laboratory Analysis Procedures. The initial test will be enzyme immunoassay. Each specimen identified as positive on the initial test shall be confirmed using gas chromatography/mass spectrometry techniques.
6. Cutoff Levels. Cutoff levels shall not be lower than DOT Standards.

*The alcohol level shall be lowered to such level as may be applicable in the State of California, except as may be required un DOT Rules and Regulations.

7. Alcohol Testing. In situations where the individual is suspected of alcohol use, the additional blood alcohol test will be required. If the individual refuses to take the blood alcohol test (or breath test if available and in conformity with this Policy), his/her employment will be terminated.

Results

1. If the results of the drug or alcohol test are positive, in the absence of a reasonable explanation, the individual will normally be referred to a rehabilitation program for a minimum of fifteen (15) days for an appropriate rehabilitative process. If the individual refuses rehabilitation or fails to comply with the recommended course of treatment, his/her employment will be terminated. Part of the recommended course of treatment will involve a drug test (with negative results reported) prior to being eligible to return to work. Further, the individual is subject to three (3) random tests during the twelve (12) month period immediately following his/her return from rehabilitation.
2. Notwithstanding any individual, who by reason of lack of medical coverage and public clinical treatment is unavailable, is unable to undergo rehabilitation, will be suspended for a minimum of thirty (30) days in lieu of rehabilitation. Such employee shall be required to submit to a drug test (with negative results reported) before being deemed eligible to return to work.
3. In cases involving violation of Article VI of the Labor Agreement, the Employer may deem it appropriate to terminate an individual rather than to offer treatment or rehabilitation.
4. After the process of rehabilitation, should an individual revert to drug use, as confirmed by testing only as defined by this Policy, his/her employment will be terminated without the Employer making further efforts to rehabilitate. Thus, a second occurrence will result in the individual's termination from employment, and the termination is subject to Arbitration.

They will be make known only to those Employer and NRTA representatives who must be involved in the decision-making process and results will only be reported as positive or negative. He shall have no power to add to or subtract from or alter in any manner, way or means, the terms and conditions of this Policy. The Arbitrator shall have no power to substitute his discretion for the Employer's discretion.

As set forth above, the Employer has the right to terminate any individual who violates any of the conditions of employment set forth in this Policy. Violations of conditions of employment included, but are limited to, refusing to sign a Consent Form, refusing to undergo a drug test when requested, refusing rehabilitation or failure to comply with the recommended course of treatment. In addition, a termination of employment for more than one (1) positive drug test and for more than one (1) incident in which an individual is determined to be under the influence of drugs or alcohol, is not subject to Arbitration.

If the Arbitrator finds that the individual did not comply with any of the conditions of employment set forth in this Policy, the Arbitrator shall have no power or authority to disturb the termination.
