- 1 – Seniors may receive a discount of \$5/month (not reflected in rates shown above)
- 2 – For non-residential customers, monthly sewer flow is set once annually based on the average water use from December through February
- 3 – Schools are charged monthly including summer and holiday breaks per student based on average daily attendance (ADA). ADA will be updated once, annually. Schools are only billed fixed sewer charges and do not pay additional flow rates.

Low strength: retail, offices, post office, churches

Domestic/medium strength: community center, healthcare, auto shops, beauty salons, mixed use, and unknown

High strength: event center, construction company, cement company, restaurants, bakeries

The categories above represent general land use designations. By its determination, the District may establish specialized rates for customers that are not categorized into the designations listed above or for customers that fall into multiple categories. Any specialized rates will be proportional to the cost of wastewater flow and pollutant disposal included in the sewer rates above such that the single family residential rate is based on the cost of service for 8,000 gallons of monthly domestic strength flow.
